There was no provision for passenger emergency braking, but this was thankfully retrospectively fitted in the early 1900's!After the grouping in 1923 they were gradually repainted into the LMS full panel livery.. Only complaint is that the interior views are very glitched (the only way I can think to describe it is 'it looks like your lying down in a reclining chair, you can see a very glitched view out of the right and another coach interior on the left out of the windows') I would like to see a patch for this..
